Campus Training

Details :

- Build web application using React.js and Node.js
- Work with data using MongoDB and Express.

### Automation Testing on Java

Campus Training

Details :

- OOPS concepts, loops and data types, Inheritance, String, Multithreading, List, Exception handling etc.
- Create test cases, Generate report, Run test cases.

### Project on HTML5

Aptech Computer Education

Details :

- Basic things on html and css
- create forms , design forms

## PROFESSIONAL SKILLS

C

Java

C#

ASP.NET MVC

React.js

Node.js

HTML5

CSS3

Bootstrap

JavaScript

MongoDB

SDLC

DBMS

MVC

SQL Server

## PROJECTS

### FastChat app

- This project is based on online chat, where anyone can do chat with another one like a messenger etc.
- **Technology** : MERN Stack , **DB**: MongoDB atlas , **Tools**: VS Code editor, Postman.

### COVID-19 Tracker

- By this Covid-19 tracker we can easily track the details about the countries whereas how many no. of people have been affected, recovered and deaths etc.
- **Technology** : React.js, Chart.js and Material UI , **Tools**: VS Code editor.
- **Github url** : [https://github.com/Swattik-Git21/COVID-19\\_Tracker.git](https://github.com/Swattik-Git21/COVID-19_Tracker.git)

### Sauce Labs automation-testing site

- **Technology** : Java, Selenium , **Tools**: Eclipse
- **Github url** : <https://github.com/Swattik1999/Sauce-Labs-Automation.git>

### Banking Management System

- **Technology** : C programming language , **Tools** : Dev C++ IDE
- **Github url** : <https://github.com/Swattik1999/Banking-Management-System.git>
